

**ALM3220 Auto Laminator**

The ALM3220 Laminator is a revolutionary automatic "green button" document laminating system offering virtually un-attended operation. Developed to meet the requirements of digital page printers and the on-demand printing market, the ALM 3220 laminator takes the guesswork out of the lamination process by eliminating conventional setup requirements. Operator skill and training requirements are minimal. At the touch of the Start button, the laminator will automatically feed, process and re-stack up to 200 sheets in one batch. It is capable of producing both flush cut and sealed edge encapsulation to tolerances of +/-0.05 inches. The ALM3220 can adjust to different size documents up to 12" x 18" and can set to trim with or without a margin.

**ALM 3220**

*The ALM 3220 will automatically feed, laminate and trim digital prints while virtually unattended.*

Exclusive high performance laminating film available in 1.5, 3 or 5 mil thickness, gloss or matte finish.

Automatic trimming in two modes: encapsulation or flush.

**ALM 3220 Feature**

- Feed tray holds up to 200 sheets
- Uses new SAP film – also ideal for all digital output
- Continuous laminating – from 1 sheet to mass production
- Easy operation and setting up
- Laminate with or without margin
- Takes A4 or A3 size
- Other sizes including banners can be cut manually
- SRA3 capability with optional feed table
- Handles film from 38 – 125 microns
- Patented technology automatically aligns and guides and feeds paper and film
- Automatically laminates & cuts 10 A4 sheets in 3 minutes
- Automatically laminates & cuts 10 A3 sheets in 5 minutes
- Automatic framing
- Just 5 minutes warm-up time
- LCD display panel shows job status, settings and counter
- Job completion is notified by sound
- Film waste dispensed into waste box

## a revolutionary breakthrough in lamination technology...

### PLUSTER Automatic Laminator

Dry-Lam is taking lamination of On-Demand Digital Prints to a new level. With the Fujipla PLUSTER, single sided laminating of Digital Prints has never been easier! The PLUSTER will automatically feed and laminate Digital Prints virtually unattended, freeing you to work on other profitable tasks. When coupled with our ASAP film, the PLUSTER becomes an instant profit-generator for you! Get this amazing machine only from Dry-Lam, America's Leader in Digital On-Demand and Wide Format Printing Lamination.

### PLUSTER Single Sided Automatic Laminator

- Perfect for digital print on demand
- Small size easy to use
- 120 Volt, 1400W service with economy mode
- Ultra quick warm up of less than 5 minutes
- Virtually Unattended operation
- Digital Sheet sizes:
- Max 13 - 3/4" x 19 - 5/8"
- Min 11 - 13/16" x 17 - 5/8"
- Automatically feeds up to 750-900 sheets
- Laminates copy paper or as heavy as 130# cover stock
- Automatic one side lamination
- 1 year parts and labor warranty

### Exclusive A.S.A.P Roll Film

- Perfect for Digital Print technology
- Anti-static properties

### PLUSTER Specifications

Model	Pluster - PLS3310
Laminating Speed	13 ft/min.
Temperature Range	170-270°F
Warm-Up Time	Approximately 5 minutes
Max Laminating Thickness	16mil
Film Thickness	1.2mil (One-sided application) A.S.A.P. Roll film
Thickness of Objects	3-10mil
Paper Feeding Capacity	750-900 Sheets, Skew-Free Feature, Paper Guide
Operation Panel	LCD display for start, stop, temperature, and speed
Other Features	Laminated sheet counter, film tension control, roller gap lever, automatic stop at end of film, power saving mode, emergency stop function,
Power Consumption	1400W
Power Supply	AC 120V (60Hz)
Net Weight Laminator:	220 Lbs.
